

equality, the only rule to be applied to the negro, and the only rule under which we can legislate. If applied, it will be proven to be the correct rule, the rule for all of us."

HOUSE REFUSES INCREASE

Decides President's Secretary Must Struggle Along on \$6,000 a Year.
Washington, D. C., February 16.—The qualifications that are necessary in one who is to fill the post of secretary to the President were discussed in the House of Representatives to-day in connection with the item in the legislative, executive and judicial appropriation bill fixing the salary of that official. The Senate had thought \$10,000 was more than adequate compensation, but the House, by a vote of 129 to 72, declined to concur, holding that \$6,000, the present salary, is ample. The increase was urged as a means of lending dignity to the office. This aroused the ire of several members, who asked if the office of secretary to the President demanded any more talent, ability, or discretion than that of Senator, Representative or circuit judge, all of which have salaries of less than \$10,000 attached.

Representative Fitzgerald said he was loath to believe that the great Republic could not furnish the President with a suitable and patriotic secretary at \$6,000 a year.

"I know you Republicans are in desperate straits," he said, "but I am not willing to admit you have shrunk as low as all this."

Representative Rainey, of Illinois, a Democrat, made a caustic speech against the increase, saying he knew of no instance in which a secretary had performed a service that could not be performed with equal tact by Speaker Cannon's negro messenger. He also asserted that some pugilist like Jack Johnson or John L. Sullivan might perform some of the duties of the office.

It is not too long ago that at the order of one of these secretaries an old lady was carried screaming through the White House grounds," said Mr. Rainey. "If a \$6,000 secretary would do a thing like that, in the name of God, we would not want him."

Mr. Rainey said one of the duties of the secretary to the President seemed to be to prevent Congressmen from seeing the Chief Executive.

Mr. Olmsted, of Pennsylvania, took Mr. Rainey to task for his speech, expressing a hope as to what might occur under the next administration," suggested Representative Mann, of Illinois.

"The gentleman admits that we will have a Democratic President," put in Representative Helin, of Alabama.

"Have you any knowledge as to what lame duck is going to get this job?" asked Mr. Clayton, of Alabama.

"I have not," replied Mr. Olmsted.

Committee Hearing To-Day.
[Special to The Times-Dispatch.]
Washington, D. C., February 16.—The Senate Committee on Interstate and Foreign Commerce will have a hearing to-morrow on the bill to prohibit the operation of bucket-shops, generally known as the "anti-option" bill. The measure proposes to put a stop to dealing in cotton contracts where no cotton is actually delivered. While it is aimed principally at bucket-shops, many cotton exchanges are opposing it.

Insists on Abolition.
Washington, D. C., February 16.—The House to-day voted to insist upon the abolition of the assay office at Charlotte. The Senate provided for the continuance of the office. The conferees were unable to agree, and the matter was put to a vote in the House with the result stated. This action will send it back to the conferees.

To Increase Cotton Markets.
[Special to The Times-Dispatch.]
Washington, D. C., February 16.—It was agreed in the House to-day this afternoon to appropriate the sum of \$60,000 for the purpose of continuing and enlarging the work of special agents to investigate the markets for cotton goods in foreign countries. Two years ago a small appropriation was secured, and W. A. Graham, of North Carolina, was sent abroad for this purpose. His work was of such a valuable nature that the manufacturing interests in the South decided, if possible, to have the scope of the undertaking enlarged.

Congressman Webb, of North Carolina, took the matter through to-day, and he believes that with this appropriation excellent results will be achieved for the cotton manufacturing industry.

Feeling the Pressure.
Washington, D. C., February 16.—The House began to-day to feel the pressure of the approaching end of the session. The House convened at 11 A. M. and did not adjourn until 10 o'clock to-night. To-morrow the session will begin at 10 A. M.

The naval appropriation bill was taken up late to-day, and six hours was allotted for general debate. Four of these hours were used to-night. The House adjourned at 10 o'clock.

Representative Graham, of Illinois, spoke on the Ballinger-Pinchot investigation, which has not yet been acted upon by Congress. Mr. Graham was a member of the committee of inquiry, and he reviewed the findings of the committee from the minority point of view.

Ballinger had been caught "red-handed" dealing with the special interests, "but despite that was given in the investigation, he was allowed to remain in President Taft's Cabinet."

The Concert at the Joy.
Last night's recital at the Jefferson auditorium accomplished two happy purposes. It was a musical treat, and it was a social success. The audience was large and the program was excellent.

Miss Dunham has a rich, ringing, beautiful soprano, which she can modulate and soften to the requirements of the music. Her voice is a true "rosary," and her playing is a masterpiece of technique.

"Berry's for Clothes"

Lot of fighting weather yet for these sweaters. No garment in the world quite so comfortable and cozy for men and women, boys and girls.

For an inside lining for the auto; for an outside shell for the skatist; for every walk, work and way of life in this weather, it's the handy all-around garment.

Boys and Girls' Sweaters, \$1 to \$3.50.

Men's and Women's Sweaters, \$1.50 to \$8.50.

Jaeger's Sweaters, \$6.25 up.

Spring Hats.

The D. D. L. A.—America's greatest.

The Henry Heath—London's crowning glory.

These, with exclusive Stetson styles, and the popular Berry Specials, make up the department of the men's of well dressed men.

Boys' Hats and Caps, too.

Count Albert Opponyi, former Speaker of the Hungarian House of Representatives, is making a tour of this country in behalf of universal peace.

is given under the auspices of the Woman's Auxiliary of the Memorial Hospital, and the list of patronesses includes prominent society women of Richmond. Selections from the "Stabat Mater" will be the chief attraction on the program.

Creator To-Morrow.
The Southern tour of Creator and his band will close in Richmond to-morrow with two concerts in the City Auditorium, matinee and evening. His trip through the South is looked upon as one of the most successful ever achieved by any band. This wizard of the baton is no stranger in Richmond, and music lovers will undoubtedly be present in large numbers to hear his musicians. He is brought to Richmond as one of the features of the Radcliffe program.

HOLD FINAL MEETING NEXT WEEK TO FORM LEAGUE
Final arrangements for the formation of the Richmond Amateur Baseball League will be made at a meeting of the special committee appointed, to be held next Monday night at 8 o'clock in the offices of The Times-Dispatch. Letters asking the questions suggested have been sent to the several managers, and the committee will be in the replies to these letters in hand the members of the committee will be in the majority opinion seems to be for a six club league, composed of such teams as have no professional, semi-professional or any ball player who has received compensation for his services, as a member of the team. Several have been volunteered for the use of the league, and the names of the parks will be made known at the first league meeting.

PEOPLE WILL DECIDE
Maine Will Vote Again on Matter of Prohibition.
Augusta, Maine, February 16.—Whether the prohibition of the manufacture and sale of intoxicating liquors shall continue under the Constitution of the State of Maine is to be determined by the voters of the State at a special election next September. By a vote of 105 to 10 the House of Representatives to-day passed the Senate resolution resubmitting to popular vote the constitutional prohibition amendment adopted in 1854. All that remains is the signature of Governor Plaisted, who was elected on a platform pledging resubmission.

NO DANGER FROM LEPROSY.
Vessel Thoroughly Fumigated and Victims Quarantined.
[Special to The Times-Dispatch.]
Norfolk, Va., February 16.—Stopping the British steamer Eskdale in Hampton Roads, requiring thorough fumigation, and with the leper Chinaman, Wang Sam, quarantined upon Fisher's Island, Dr. Powhatan Schenk, acting quarantine officer, is confident that there is no danger in the presence of the steamer at the coal piers at Lambert's Point.

The leper will be carried back to Huelva, Spain, where he was shipped by the steamer. His body bears the signs of healed leprosy sores.

SIX WOMEN RESCUED
Taken From Burning Euclid Hotel in Unconscious Condition.
Cleveland, O., February 16.—Six women were rescued to-night in an unconscious condition from the upper floors of the Hotel Euclid during a fire which threatened for a time to destroy the building, and who were taken to the fire-fighting force of the city. The hotel is one of the largest and best equipped in the city, and the fire, which started in the kitchen, spread rapidly to the upper floors, and caused a panic among the guests. All of the rescued women had been overcome by smoke, but none were seriously injured.

"Dr. Miles' Nervine Completely Cured Our Little Boy of Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy. Many a father or mother would give their all to restore such a child to health.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for three years. I tried three doctors and one specialist but all of them said he could not be cured, but Dr. Miles' Nervine and Liver Pills made a complete cure. He is now hale, hearty and gay. It has been three years since he had the last spell. I shall give Dr. Miles' Nervine praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply."

F. M. BOGUE, Winfield, Ind.

Dr. Miles' Nervine

is just what it is represented to be, a medicine compounded especially for nervous diseases, such as fits, spasms, St. Vitus' dance, convulsions and epilepsy. These diseases frequently lead to insanity or cause weak minds. Dr. Miles' Nervine has proven most effective in relieving these dreaded maladies.

MILES MEDICAL CO., Elkhart, Ind.

government's proposal of political equality for Alsace-Lorraine. Street.

As drawn by the government and adopted by the Bundesrath the constitution gave the new state no representation in the Bundesrath, as it was designed apparently not to increase Prussian influence. The committee of the Reichstag, however, adopted an amendment giving the Reichsland three votes in the Bundesrath, thus permitting it to enter the empire as a full-fledged federal state. Yesterday, in direct opposition to the wishes of the government, the clerical element of the committee forced through another amendment striking out the clause which gave the Emperor the exercise of executive authority and substituting a provision for a practically free of imperial control and influence. It was anticipated that the government would not accept these modifications of its plan.

WARRANT ISSUED FOR ARREST OF ROBY MASSIE
On complaint of Mrs. Susan Hall, a warrant was issued yesterday afternoon for Roby Massie, of 1520 Venable Street, who was with abducting Calie Isabella Hall, her fifteen-year-old daughter. Before the warrant was issued, Mrs. Massie and Mrs. Hall appeared together at police headquarters and made the charge.

According to both women, Massie had been with the girl for some time. They allege that he has gone either to Norfolk or Charleston, W. Va., and inquiries have been sent to these places from police headquarters.

MARBLE A SUICIDE
Commander Shoots Himself at Naval War College.
Washington, D. C., February 16.—Commander Frank Marble committed suicide at the Naval War College at Newport, R. I., on Monday night, according to the report of the naval board of inquest, which was received by the Navy Department to-day. The board found that the officer shot himself, but it was unable to assign any motive for the act. He was a popular and efficient officer. It is believed in official quarters that he took his life during a moment of temporary aberration.

NO FEAR FOR POPE
Physician Finds His Holiness in Satisfactory Condition.
Rome, February 16.—The Pope, who is suffering from an attack of influenza, and a slight rise in temperature to-night, but Dr. Petraci found his Holiness in a satisfactory condition, and expects that with a few more days of care and rest his health will be completely restored. He advised, however, that all audiences be suspended until next week.

Influenza is quite prevalent here. Cardinal Rinaldini is suffering from a serious attack, and although his temperature has not risen above 100, the condition of the cardinal is not such as to offer much resistance, in consequence of his overworked and ascetic life.

Cardinal Rinaldini is also confined to his apartments from the disease.

MAKES SERIOUS CHARGE
Wants Insurance Department of the Knights of Pythias Probed.
Washington, D. C., February 16.—Application for an investigation of the insurance department of the Supreme Lodge, Knights of Pythias, was made to the District of Columbia by John H. Turpin, of Greensburg, Ala. Mr. Turpin is a certificate-holder of what is known as the fourth-class endowment rank. He alleges that the effort of the lodge to raise the amount of assessments of his certificate, rights of class, and the like, is a "bourgeois" virtue, but we have not yet established a Utopia, in which it will be unnecessary for our children to pay their bills."

Regarding the teaching of eugenics, which President G. Stanley Hall, of Clark University, advocated as one of the solutions of the social problem of to-day, Dean Mathews took an opposite view. "We hear," he said, "a vast amount of advice to the effect that children are to be taught mysteries of sex. I profoundly believe that the maintenance of moral ideals in families will prove a vastly more effective solution of the social problem of to-day. Dean Mathews took an opposite view.
